

CHAPTER 7

REINFORCEMENT

Incandescent Light Filaments (continued)

BLM 7-6

2. You are an artist and have been asked to do an illustration for a textbook. Draw a detailed diagram of an incandescent light bulb and label all of its parts.
3. What gases are used in modern incandescent light bulbs, neon lights, and fluorescent tubes? How are these gases similar and how are they different? (Hint: Find out how and why they are used in each source of light.) In the space below, or on a separate page, create a chart to record your findings.
